

Hit the road this summer with Octopus Electroverse and GWM ORA

To celebrate Clean Air Day GWM ORA has teamed up with Octopus Electroverse to create the ultimate guide to some scenic charging spots just hours from London. We got out of the city and headed to the coast and hit up some stunning spots along the way.

Want to follow along? Check out our handy guide to each of the charging spots and drive on in the knowledge you are doing your bit to reduce air pollution!

Kicking off the day in the **home of tennis**

We kicked off our journey in **Wimbledon, London** – the perfect launching point for a road trip heading south. With hundreds of chargers available, you can easily top up your EV and get ready for the adventure ahead.

We set off in confidence thanks to the **Electroverse route planner** and **GWM ORA 03** with its 260 WLTP mile range!

📌 156 Somerset Road London SW19 5HP

📖 While you wait for your car to charge up why not head to the iconic tennis venue just steps away. No ticket? No problem! Take a tour and get a behind-the-scenes look without any of the match-day crowds.

First stop: **Farm shop!**

Just two hours after setting off we were pulling into our first pitstop of the road trip: **Salts Farm Shop!** Located in **Rye, East Sussex** the farm shop is perfectly situated for a coffee and cake break.

We arrived in comfort thanks to the **ORA 03** and once we stepped out of the car we could immediately feel the difference in the fresh, countryside air!

📌 Rye East Sussex TN31 7PA

📖 The farm shop is packed full of local produce and with a garden centre just next door you won't be short of things to browse while your EV rapidly charges. You might even meet a sheep or two!

On to the **coast!**

For our next stop, we headed out to the coast to soak up some refreshing sea air. The salty breeze and crashing waves were a delightful change of scenery, and the perfect backdrop for our sustainable road trip.

After a rejuvenating seafront walk, we sat down to reflect on the significance of **Clean Air Day**. It was a poignant reminder of the importance of reducing inner-city air pollution, and how using EVs can make a tangible difference.

📌 Greatstone-on-Sea, TN29 9PE

📖 Head out to the sands to get some sea air into your lungs and see if you can spot some of the local wildlife!

The grand finale

Our scenic sustainable road trip wouldn't be complete without a final stop along the beautiful coast – Dymchurch! Just a short drive up from our previous seaside adventure, we arrived ready to explore.

Using the Electroverse route planner, we located a convenient slow charger in case we needed a top-up before heading back to London. But charging wasn't our only focus; Dymchurch had plenty to offer!

 Dymchurch, TM29 0TD

 Check out the seafront amusement park, head out to the stunning sands of Dymchurch beach, or grab some fish and chips!

As we prepared to head back home, we reflected on the wonderful experiences and the ease of travelling sustainably in an EV. With the **GWM ORA 03** and the **Electroverse route planner** by our side, our summer road trip was a breeze, proving that green travel can be fun, easy, and incredibly rewarding.
